

Mad River Community Hospital

Nursing Student

Online Post-Test – Fall 2020

Name: \_\_\_\_\_ (please write legibly)

Date: \_\_\_\_\_ College: \_\_\_\_\_

Instructor: \_\_\_\_\_

- Please complete the following after reviewing the student nurse orientation online power point. Circle or fill in answers as appropriate.
  - Bring this completed post-test with you on the first day of your in-hospital orientation (September 22 or 24).
- 

1. It is important to inform your instructor or MRCH staff if you feel unable or unsafe to perform a care measure.

True or False

2. Nursing students may pick up blood from the lab.

True or False

3. Please list two patient rights \_\_\_\_\_

\_\_\_\_\_

4. Please complete the unfinished word: PPE is a ba \_\_\_\_\_ against travel of an infectious agent from one person to another person, so the type of PPE used depends on how a pathogen travels.

5. Wearing gloves decreases the need for hand hygiene.

True or False

6. Please complete: Even when gloves are removed correctly, some microbes are on skin, perhaps from tiny holes or tears in gloves -- or from \_\_\_\_\_.

7. Please describe the step you are allowed to take (as a nursing student) for an emergency hospital code.

---

8. Please list two items you would see that could indicate a piece of equipment is damaged or defective:

---

9. It is about 1300 in the afternoon, and you discover a fire while in a patient room. Please give the name of this type of code, and please list the phone number you would call so the code will be announced.

---

10. What do the RACE and PASS fire safety acronyms stand for?

**RACE:** \_\_\_\_\_

---

**PASS:** \_\_\_\_\_

---

11. Please list two specific steps you can take to safeguard patient protected health information (PHI).

---

12. At MRCH, access to a website or ability to download a program infers acceptable use

True or False

13. When considering a person's culture in your care planning, don't be afraid to respectfully ASK the patient. Your best resource is always the persons themselves.

True or False

14. Please list two items that may be culturally influenced and that may be relevant to patient care (and think about your own preferences re these items).

---

15. When lifting, twisting at the same time can cause back injury.

True or False

16. If you are injured during a clinical, immediately report the injury to your instructor and perhaps others.

True or False

17. In a tense situation with an agitated person, keep clear access to an exit, maintain a safe position/distance, and get help from an instructor or MRCH staff person.

True or False

18. Please complete: On the MRCH intranet, a data base that contains safety data sheets with information about potential toxics is called the \_\_\_\_\_.

19. Waste with confidential patient information is placed in what type of container?

---

20. A bandaid with a drop of blood belongs in a red bag.

True or False

21. Sharps safety includes not placing sharps in a container that looks pretty full.

True or False

22. If you're not sure what to do regarding a hazardous material or waste, please list one person you can ask.

---
