

Mad River Community Hospital – Price Index DISCLAIMER

Please read before proceeding to the price index.

This shoppable and all services price list is based on information we have gathered from our claims and insurance payment files. This is not a guarantee of what you will be charged. Your actual charges may differ from the estimated charges for many reasons, including the seriousness of your medical condition, actual time the procedure takes and the services and supplies that you receive. If you have insurance, your benefits will ultimately determine the amount you owe (including deductibles, co-pay, co-insurance, and out-of-pocket maximums).

The shoppable or all services price list was developed to help you determine the *potential* cost for services only.

If you proceed with services at Mad River Community Hospital, you may be given a new estimate with more accurate cost and out-of-pocket information. Please contact Mad River Community Hospital Patient Accounts for more information at **(707) 826-8260** or from the [Contact Us](#) form on this website.

Mad River Community Hospital shall not be liable for any difference between charges listed in the price lists and the final bill for services. You may be eligible for financial assistance under the Mad River Community Hospital financial assistance policy. Financial hardship is evaluated on a case-by-case basis.
